- **Databases :** PostgreSQL, MongoDB, Firebase.
- **Tools & Technologies:** Git, AWS (S3, CloudFront), Azure DevOps (CI/CD), Agile/Scrum, ESLint, Prettier, JIRA
- Familiar With: Node.js (basic), RESTful APIs, Axios, JWT Authentication, Webpack

EDUCATION

Bachelor of Arts (Consumer Services)

Yashwantrao Chavan Open University, Nashik
[August 2013 - September 2017]

Higher Secondary Education

AES Education Society

[March 2012 - August 2013]

TRAINING & CERTIFICATION

Full Stack Web Development Bootcamp
Masai School | Oct 2021 - Jul 2022

- Completed an intensive 9-month Full Stack Web Development Bootcamp, mastering MERN stack and delivering 5+ hands-on projects.

SOFT SKILLS

- Teamwork & Collaboration .
- Effective Communication .
- Problem-Solving & Analytical Thinking .
- Time Management & Meeting Deadlines .
- Proactive & Solution-Oriented Approach .
- Client-Focused Mindset .

PROFILE SUMMARY

Frontend Developer with **3+ years of experience** building responsive, scalable, and **SEO-optimized** web applications using **React.js, Next.js, and TypeScript**. Skilled in developing **high-performance UIs**, optimizing rendering with **SSR/SSG**, and managing state using **Redux Toolkit** and **Context API**. Adept at collaborating with designers, backend teams, and stakeholders to deliver accessible, user-centric products aligned with business goals. Experienced in **Agile environments**, cross-browser compatibility, and modern UI testing.

PROFESSIONAL EXPERIENCE

Software Engineer

Indus Net Technologies Kolkata

[Sep 2024 - Present]

- Developed AFLI, an insurance platform using Next.js (SSR & SSG), enhancing SEO and page performance by 30%.
- Implemented global state management using Redux Toolkit and Context API, improving maintainability and scalability.
- Collaborated with UI/UX teams to deliver responsive and accessible components across devices and browsers.
- Guided junior developers in React and TypeScript best practices, code quality, and component-based architecture.
- Integrated REST APIs and optimized data fetching with caching and lazy loading for smoother UX.

Associate Software Engineer

Indus Net Technologies Kolkata

[Sep 2022 - Sep 2024]

- Developed Connect2Clinic, a clinic management platform using React.js, Context API, and Tailwind CSS, improving user workflow efficiency.
- Reduced bundle size by 20% via dynamic imports and route-based code splitting.
- Established unit and integration tests using Jest and React Testing Library, ensuring robust and maintainable front-end code.
- Collaborated with backend teams to integrate APIs and implement error handling with Axios middleware.
- Actively participated in Agile ceremonies, code reviews, and performance profiling for continuous improvement.

PROJECTS

State Bank of India General Insurance (Finance/Insurance)

- Implemented authentication and rate limiting strategies to protect APIs.
- Managed front-end state with Redux Toolkit and React Hooks for a complex insurance portal.

AgeasFederal

(Finance/Insurance)

- Built SEO-optimized and server-rendered pages with Next.js (SSR/SSG) for improved load time and discoverability.
- Delivered responsive layouts and modular components adhering to WCAG accessibility standards.

Connect2Clinic (Clinic Management Platform) (Finance/Insurance)

- Engineered reusable React components for patient and appointment modules using Tailwind CSS for uniform styling.
- Enhanced UX by applying dynamic imports and lazy loading for key modules.

REWARDS & RECOGNITIONS

- Recognized for surpassing project expectations on Connect2Clinic, delivering high-impact solutions that improved **project delivery** and **client satisfaction**.

EMPLOYMENT PREFERENCES

- Notice Period: **1 month**
- Preferred Locations: Pan India
- Availability for Relocation: Immediate
- Expected Notice Period Buyout: Negotiable
- Methodologies: Agile Scrum, TDD

Alkem Marketplace (E-commerce/Healthcare)

- Designed modular UI components and integrated them with RESTful APIs for seamless healthcare product transactions.
- Improved rendering efficiency through memoization and React hooks optimization.
