- Time Management & Meeting Deadlines .
- Proactive & Solution-Oriented Approach .
- Client-Focused Mindset .

PROFILE SUMMARY

Full-stack Developer with **3+ years of experience** building scalable web applications in **insurance and e-commerce domains**. Expert in frontend (**React, Next.js, Redux, Tailwind CSS, JavaScript, Typescript, Jest**) and backend (**Node.js, Express.js, PostgreSQL, MongoDB**) technologies, with a proven track record of **designing RESTful APIs** and **optimizing performance** by 30%+. Skilled in **collaborating** with cross-functional teams, **mentoring juniors**, and aligning technical solutions with business goals using AWS and **agile methodologies**.

PROFESSIONAL EXPERIENCE

Software Engineer

Indus Net Technologies Kolkata

[Sep 2024 - Present]

- Developed Afli, an insurance platform using Next.js with SSR and static site generation, improving SEO and page load times.
- Built RESTful APIs in Node.js/Express.js with PostgreSQL, enhancing data retrieval performance.
- Implemented global state management with Redux Toolkit and theming via Context API to streamline development.
- Guided junior developers on React and TypeScript practices to support team learning.
- Collaborated with UX designers to deliver responsive, accessible interfaces across browsers.

Associate Software Engineer

Indus Net Technologies Kolkata

[Sep 2022 - Sep 2024]

- Created Connect2Clinic, a clinic management platform with React.js, Context API, and Tailwind CSS to improve user workflows.
- Reduced front-end bundle size through code splitting and dynamic imports.
- Integrated RESTful APIs and centralized error handling using Axios middleware.
- Participated in Agile ceremonies and conducted code reviews to maintain code quality.
- Established unit and integration tests with Jest and React Testing Library to enhance application reliability.

PROJECTS

State Bank of India General Insurance (Finance/Insurance)

- Implemented authentication and rate limiting strategies to protect APIs.
- Managed front-end state with Redux Toolkit and React Hooks for a complex insurance portal.

AgeasFederal

(Finance/Insurance)

- Developed key features in Next.js, utilizing SSR and SSG for efficient delivery.
- Designed and secured backend services with Node.js, Express.js, and PostgreSQL.

Connect2Clinic (Clinic Management Platform) (Finance/Insurance)

- Built core modules in React.js with Context API for state management and Tailwind CSS for UI.
- Applied code splitting techniques to optimize load performance.

REWARDS & RECOGNITIONS

- Recognized for surpassing project expectations on Connect2Clinic, delivering high-impact solutions that improved **project delivery** and **client satisfaction**.

EMPLOYMENT PREFERENCES

- Notice Period: **1 month**
- Preferred Locations: Pan India
- Availability for Relocation: Immediate
- Expected Notice Period Buyout: Negotiable
- Methodologies: Agile Scrum, TDD

Alkem Marketplace (E-commerce/Healthcare)

- Created reusable React components integrated with Express.js APIs for a healthcare marketplace.
- Optimized server-side queries and middleware for smoother transaction processing.
