- Familiar With: SEO Optimization, SASS/LESS, Webpack, Gulp

EDUCATION

Bachelor of Arts (Consumer Services)

Yashwantrao Chavan Open University, Nashik
[August 2013 - September 2017]

Higher Secondary Education

AES Education Society
[March 2012 - August 2013]

TRAINING & CERTIFICATION

Full Stack Web Development Bootcamp
Masai School | Oct 2021 - Jul 2022

- Completed an intensive 9-month Full Stack Web Development Bootcamp, mastering MERN stack and delivering 5+ hands-on projects.

SOFT SKILLS

- Teamwork & Collaboration .
- Effective Communication .
- Problem-Solving & Analytical Thinking .
- Time Management & Meeting Deadlines .
- Proactive & Solution-Oriented Approach .
- Client-Focused Mindset .

PROFILE SUMMARY

Full-Stack Developer with 4 years of experience building scalable, production-grade web applications across **insurance and e-commerce** domains. Proficient across the full stack with **React.js, Next.js, Redux Toolkit, TypeScript** on the frontend and **Node.js, Express.js, PostgreSQL, MongoDB** on the backend. Experienced in designing **RESTful APIs**, building and containerizing **microservices with Docker**, and implementing **Micro Frontend (MFE) architecture using Single-SPA** for independently deployable applications. Proven record of **optimizing performance by 30%+**, mentoring junior developers, and delivering business-aligned solutions in **Agile/Scrum** environments.

PROFESSIONAL EXPERIENCE

Software Engineer

Indus Net Technologies Kolkata

[Sep 2024 - Present]

- Developed AgeasFederal, a full-stack insurance platform, using Next.js (SSR & SSG) for the frontend and Node.js/Express.js REST APIs backed by PostgreSQL, improving SEO and page performance by 30%.
- Architected and integrated a **Micro Frontend (MFE)** setup using **Single-SPA**, enabling multiple teams to independently build, test, and deploy feature modules without blocking releases.
- Designed and containerized backend services as **microservices using Node.js, Express.js, and Docker**, improving deployment isolation, scalability, and release velocity.
- Guided junior developers on React, TypeScript, and API design best practices, raising overall code quality across the team.

Associate Software Engineer

Indus Net Technologies Kolkata

[Sep 2022 - Sep 2024]

- Built Connect2Clinic, a full-stack clinic management platform, using React.js, Context API, and Tailwind CSS on the frontend and Node.js/Express.js APIs on the backend, improving user workflow efficiency.
- Reduced front-end bundle size by 20% through code splitting and dynamic imports, and centralized backend error handling using Axios middleware.
- Established unit and integration tests using Jest and React Testing Library, improving application reliability..
- Participated in Agile ceremonies and conducted code reviews to maintain consistent code quality across the team.

PROJECTS

State Bank of India General Insurance (Insurance)

- Implemented **authentication** and **rate limiting strategies** to protect APIs.
- Managed front-end state with Redux Toolkit and React Hooks for a complex insurance portal.

AgeasFederal (Insurance)

- Built **SEO-optimized** and server-rendered pages with **Next.js (SSR/SSG)** for improved load time and discoverability.
- Delivered responsive layouts and modular components adhering to WCAG accessibility standards.

Connect2Clinic (Clinic Management Platform)

- Engineered **reusable React components** for patient and appointment modules using Tailwind CSS for uniform styling.
- Applied **code-splitting** techniques to optimize load performance..

REWARDS & RECOGNITIONS

- Recognized for surpassing project expectations on Connect2Clinic, delivering high-impact solutions that improved **project delivery** and **client satisfaction**.

EMPLOYMENT PREFERENCES

- Notice Period: **1 month**
- Preferred Locations: Pan India
- Availability for Relocation: Immediate
- Expected Notice Period Buyout: Negotiable
- Methodologies: Agile Scrum, TDD

Alkem Marketplace (E-commerce/Healthcare)

- Built and maintained backend **RESTful APIs** with Express.js for healthcare product and transaction workflows, ensuring reliable data handling for the marketplace.
- Optimized server-side queries and **middleware** for smoother transaction processing.
